

Support and donate for Rojava!

Every contribution is a contribution for just peace and freedom
in Kurdistan, Syria and the Middle East!

Join the Rojava Solidarity
Campaign of ICOR!

„ICOR Europe expresses its solidarity with the struggle of the people in Rojava for democratic autonomy and self-determination and their struggle for national and social liberation. It condemns any kind of imperialist intervention as well as intervention of reactionary states of the region in Syria and defends the right of self-determination of the peoples of Syria so that they can decide themselves on their future and demands the immediate removal of the embargo against Rojava. ... We are calling on all anti-imperialist, progressive and revolutionary people, organisations and parties to join the solidarity campaign with Rojava and to carry it further and grow it with their own actions and ideas. Our practical solidarity shall be a support for the West Kurdish people on their way to freedom.”

Long live the Rojava Revolution!

Down with colonialism and imperialist aggression!

All imperialists out of the Middle East!

The bloody policy of imperialism makes life of the peoples of the Middle East more and more a living hell with every passing day. They are inciting the people upon nations and religions against each others and the imperialist proxy war in Syria turns increasingly into a wildfire spreading all over the region. Moreover, now a direct military intervention of US imperialism and the English and French imperialism is on the agenda, which makes the situation of millions of people even more unbearable and cost countless humans their life. We condemn any imperialist intervention in the region utterly and call on all anti-imperialist forces to determine actions against an imperialist attack on Syria!

For a revolutionary line of the peoples
of the Middle East!

Two imperialist and reactionary poles are facing each other in the Middle East: on one hand US imperialism, EU imperialists and their collaborators like the fascist dictatorship in Turkey and Zionist Israel as well as their armed gangs and mercenaries like the “Free Syrian Army” and Al-Nusra linked to Al-Qaeda and on the other side colonialist reactionary regimes like in Iran and the Baath regime in Syria supported by Russian and Chinese imperialism. In Egypt the Islamic reactionaries and putschists are fighting each other, in Syria the criminal gangs and mercenaries like FSA and the repressive Baath regime, in Turkey the Islamic AKP government and the chauvinist putschists are quarrelling for a bigger share of power. Everywhere imperialism tries to drive the working class and the oppressed peoples into the hopelessness of these two deadlocks, which both have absolutely no solution for the innumerable problems and demands but are the reason. None of these two line can be ours. The working class, the labouring masses and the oppressed peoples and their revolutionary and communist organisations are not obliged to choose between two reactionary cliques because there is a third road, a road leading leading to freedom,

justice and independence. The Kurdish people of Rojava (West Kurdistan) is advancing on this road consequently for a long time. Therefore its is attacked from all sides, therefore all progressive and revolutionary forces have to take the side of the revolution in Rojava.

“The Rojava revolution is our revolution”

Why is the colonialist fascist Turkish regime one of the most aggressive warmongers on the side of the imperialists in Syria? Because it sees the danger of the Kurds historically gaining a political status in the Middle East with the Rojava Revolution. Just like the bourgeois Turkish state and its AKP government continue the negotiation process with the PKK with delaying tactics and carries out its war preparations more and more obviously they conduct a bloody expedition against the achievements in Rojava. However, Rojava is resisting despite brutal massacres of civilians, despite the embargo and bombardments. Despite all manoeuvres the four parts of Kurdistan are advancing on the road of unity evermore in the defence of the revolution in Rojava. From all parts of Kurdistan the call rings “The Rojava revolution is our revolution” and the Kurdish women are exclaiming at their actions at the border of Ceylanpinar “the free women do not accept any borders”.

For the right of self-determination

The Kurdish people is with over 40 millions one of the biggest nations today not having its own state and suffering from

the yoke of colonial oppression. Although the Kurdish people fought time after time in its millennial history for self-determination and freedom, its land is still divided into four parts dominated by Turkey, Iran, Iraq and Syria. Particularly in Turkey, but also in the other parts of Kurdistan, their existence was negated, their language, traditional clothes, music, literature and press banned and brutally suppressed. The revolution in Rojava is an uprising against colonial oppression. We support the unconditional right of the Kurdish nation of union of the four parts and of self-determination including the right of separation. We express our full solidarity with the struggle for democratic self-determination and autonomy in Rojava.

Rojava – example for freedom and fraternity!

Meanwhile the imperialists and reactionaries are drowning the Middle East in

blood in Rojava a democratic alternative emerges based on friendship between peoples and freedom. People are creating their own social order in the cultural, political, social and economic area. The revolution in Rojava is at the same time a revolution of women! The youth and the women are participating in the revolution, liberating themselves and starting to rule themselves. They are building an education and health system, the revolution is socialized and the society is politicising itself. Communal council structures where all the ethnic, religious and social groups of the region are represented are being build as well military forces for the effective self-defence of the revolution in Rojava.

Rojava has become the hope of the peoples of the Middle East and exactly this is what those in power are afraid of! For this reason they are murdering and pillaging and threatening to drown the revolution in Rojava.

Hands off Rojava and Syria!

By means of the embargo, joined by the Western imperialists and also the Barzani administration in South Kurdistan as well as Turkey and so cutting off West Kurdistan from all channels of supply, encirclement and military attacks they intend to factually famish and violently drown the brave struggle of the Kurdish people in Rojava – do not let them do that! Let us determinedly struggle against imperialist aggression and colonialist oppression, let us carry our solidarity with the revolution in Rojava to the streets and squares, let us extend it to every corner of the Middle East!

The people of Rojava is not alone! Let us support the revolution in Rojava with solidarity actions but also practically with medicines urgently needed in order to survive and donations. Every contribution is a contribution for the survival of the revolution in Rojava! Let us carry the struggle for freedom and democracy from Gezi, Tahrir and Rojava to every corner of the world!

Long live the Rojava Revolution!
